Determining the period of validity of a vignette

A **weekly vignette** is valid for seven consecutive calendar days, i.e. the perforated day, selected by the buyer when purchasing the vignette, and the following 6 days.

A **monthly vignette** is valid for one month – from the day of purchase to the end of the day of the following month with the same numeral as the day of purchase, or to the end of the last day of the following month if that month has no such day.

A **half-year vignette** is valid for six months from the purchase date.

A **yearly vignette** for the current year is valid from 1 December of the previous year to 31 January of the next year (14 months altogether).

Weekly vignette

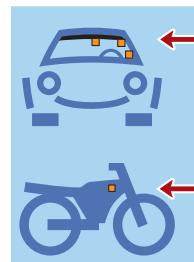

Monthly vignette

Half-year vignette

The period of validity of a weekly, monthly or half-year vignette is determined by validation or punching, which is carried out by the seller of the vignette at the sales outlet. Vignettes are punched in the place that marks the first day of validity. When you buy your vignette, make sure that it is punched correctly.

Affixing a vignette

Suggested place of display

Vignettes must be affixed to vehicles before they enter a toll road!

Please read the instructions on the back of the vignette carefully before you affix it to your vehicle.

A vignette can only be used for one vehicle!

An affixed or used vignette is damaged in the process of removal, which makes it invalid. It is not permitted to use other adhesives, special foils, adhesive tapes or similar things to affix a vignette. Such use makes a vignette invalid.

Control

Control over the proper use of vignettes is carried out by Motorway Company in the Republic of Slovenia (DARS), the Customs Administration of the Republic of Slovenia and the Police.

Driving on motorways and highways without a valid and properly affixed vignette is considered a violation of the Road Tolling Act and is penalised with a fine of EUR 300 to EUR 800.

All information on the procedures for obtaining a substitute vignette or reimbursement for the purchase of a substitute vignette can be found on our website www.dars.si

Ako je visina vozila iznad prve osovine oko 130 cm i niste sigurni u koji razred cestarine spada vozilo, savjetujemo da na internetskoj stranici www.dars.si provjerite Popis izmjerenih vozila.

Određivanje razdoblja važenja vinjete

Godišnja vinjeta za tekuću godinu važi od 1. prosinca prethodne godine do 31. siječnja nadolazeće godine (ukupno 14 mjeseci).

Razdoblje važenja mjesečne, tjedne i polugodišnje vinjete određuje se ovjeravanjem, odnosno bušenjem, koje vrši prodavač vinjete na prodajnom mjestu. Vinjete se buše na mjestu koje označava prvi dan važenja. Pri kupnji uvijek provjerite da li je vaša vinjeta pravilno probušena.

Na vozilo mora biti postavljena vinjeta prije nego što započne s vožnjom na cesti na kojoj se naplaćuje cestarina!

Molimo vas da prije namještanja vinjete pažljivo pročitate upute za lijepljenje, koje se nalaze na poledini vinjete.

Vinjetu možete upotrijebiti samo na jednom vozilu!

Nalijepljena odn. iskorištena vinjeta se prilikom odstranjivanja ošteti i postaje nevažeća. Za lijepljenje vinjete nije dopuštena uporaba drugih ljepila, posebnih folija, ljepljivih traka i sl., jer u tom slučaju je vinjeta nevažeća.

Kontrola

Kontrolu nad pravilnom upotrebom vinjeta provode Društvo za autoceste u Republici Sloveniji d.d. (DARS), Carinska uprava Republike Slovenije i Policija.

Upotreba autocesta i brzih cesta bez valjane vinjete i odgovarajuće postavljene vinjete smatra se kršenjem Zakona o naplati cestarine i sankcionirana je kaznom od 300 do 800 eura.

Freely available from Google Play and the App Store.

Check which toll-rate category your vehicle is classified in before buying a vignette. Replacing the vignette after it has been applied is not possible. Keep the receipt and the vignette coupon for the period of the vignette's validity.

If the height of the vehicle above the first axle is close to 130 cm and you are not sure what toll-rate category your vehicle is classified in, please check the list of measured vehicles at www.dars.si.

Determining the period of validity of a vignette

A **weekly vignette** is valid for seven consecutive calendar days, i.e. the perforated day, selected by the buyer when purchasing the vignette, and the following 6 days.

A **monthly vignette** is valid for one month – from the day of purchase to the end of the day of the following month with the same numeral as the day of purchase, or to the end of the last day of the following month if that month has no such day.

A **half-year vignette** is valid for six months from the purchase date.

A **yearly vignette** for the current year is valid from 1 December of the previous year to 31 January of the next year (14 months altogether).

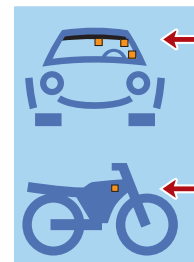

Weekly vignette

Monthly vignette

Half-year vignette

The period of validity of a weekly, monthly or half-year vignette is determined by validation or punching, which is carried out by the seller of the vignette at the sales outlet. Vignettes are punched in the place that marks the first day of validity. When you buy your vignette, make sure that it is punched correctly.

Affixing a vignette

Suggested place of display

Vignettes must be affixed to vehicles before they enter a toll road!

Please read the instructions on the back of the vignette carefully before you affix it to your vehicle.

A vignette can only be used for one vehicle!

An affixed or used vignette is damaged in the process of removal, which makes it invalid. It is not permitted to use other adhesives, special foils, adhesive tapes or similar things to affix a vignette. Such use makes a vignette invalid.

Control

Control over the proper use of vignettes is carried out by Motorway Company in the Republic of Slovenia (DARS), the Customs Administration of the Republic of Slovenia and the Police.

Driving on motorways and highways without a valid and properly affixed vignette is considered a violation of the Road Tolling Act and is penalised with a fine of EUR 300 to EUR 800.

Substitute vignette

All information on the procedures for obtaining a substitute vignette or reimbursement for the purchase of a substitute vignette can be found on our website www.dars.si

You can carry out the procedures relating to issuing a substitute vignette and reimbursing for the purchase of a substitute vignette by regular post or in person at the Toll User Centre.

Lo scontrino e il tagliando della vignetta devono essere conservati per tutto il periodo di validità della vignetta.

Se l'altezza del veicolo sopra l'asse anteriore è all'incirca di 130 cm e non siete sicuri sulla classe del vostro veicolo, vi consigliamo di visitare il sito www.dars.si e di consultare la Lista dei veicoli misurati.

Posizionamento della vignetta

Il veicolo deve essere munito di vignetta prima di imboccare l'autostrada o la superstrada!

Prima di posizionare la vignetta, leggere attentamente le istruzioni sul retro della stessa.

La vignetta può essere utilizzata soltanto su un veicolo!

Parte consigliata per il posizionamento della vignetta

Una vignetta già incollata, ovvero utilizzata, si danneggia durante la rimozione e conseguentemente perde la validità. Non è consentito incollare la vignetta con altri tipi di colle, pellicole, nastri adesivi e simili. Se ciò si verificasse, la vignetta perderebbe validità.

Controlli

I controlli sull'utilizzo appropriato dei bollini autostradali sono svolti dalla Società per le autostrade della Repubblica di Slovenia (DARS), dall'Ufficio doganale della Repubblica di Slovenia e dalla Polizia.

L'utilizzo di autostrade e superstrade senza il bollino valido e applicato correttamente è considerato violazione della Legge sul pedaggio, ed è sanzionato con una contravvenzione da 300 a 800 euro.

Vignetta sostitutiva

Tutte le informazioni concernenti l'acquisizione della vignetta sostitutiva o la restituzione del valore d'acquisto della vignetta sostitutiva sono disponibili sul nostro sito www.dars.si.

Ne felejtse el matricát venni!

Szlovéniában az autópályákon és gyorsforgalmi utakon úthasználati díjat kell fizetni. Az összes járműnél, vontatmánnyal vagy a nélkül, amelynek megengedett legnagyobb összömege nem haladja meg a 3500 kg-ot, az úthasználati díj megfizetése matricával történik.

A matricák típusai és árai

A 2017-es évre érvényes valamennyi típusú matricát a hivatalos, a matrica szimbólummal ellátott értékesítőknél vásárolható meg.

Útdíjkategória	Érvényességi idő	Ár (HÉA-val)
1 	Heti matrica	7,50 EUR
	Féléves matrica	30,00 EUR
	Éves matrica	55,00 EUR
2A 	Heti matrica	15,00 EUR
	Havi matrica	30,00 EUR
	Éves matrica	110,00 EUR
2B 	Heti matrica	30,00 EUR
	Havi matrica	60,00 EUR
	Éves matrica	220,00 EUR

tömege nem haladja meg a 3500 kg-t, vontatmánnyal vagy nélküle

Az autópálya-matrica megvásárlása előtt ellenőrizni kell, hogy melyik útdíj kategóriába van besorolva a jármű, amelyre matricát vásárol. A már felragasztott matricát nem lehetséges kicserélni. Őrizze meg a számlát és a szelvényt a matrica érvényességi idejének lejártáig.

Amennyiben a gépjármű első tengelye feletti magasság kb. 130 cm és nem biztos benne, hogy melyik kategóriába tartozik a járműve, akkor javasoljuk, hogy ellenőrizze a www.dars.si holnapon közzétett Mért járművek listájában.

A matrica érvényességi idejének meghatározása

Az éves matrica az előző év december 1-től a következő év január 31-ig érvényes (összesen 14 hónapig).

A havi, heti vagy féléves matrica érvényességi ideje a matrica kilyukasztásától vagy érvényesítésétől számítandó. A matricákat a vásárlás helyszínén lyukasztják ki; ez jelzi az érvényesség kezdetét is. Matrica vásárlásakor mindig ellenőrizze, hogy az megfelelően van-e kilyukasztva.

Érvényességi időszak

A heti matrica hét egymást követő naptári napig érvényes: a vevő által a vásárláskor meghatározott, a matricán kilyukasztott napon és a következő 6 napon.

A havi matrica egy hónapig érvényes – a vásárlás napjától a következő hónap azonos számú napjának végéig, vagy ha a következő hónapban nincs azonos számú nap, a hónap utolsó napjának végéig.

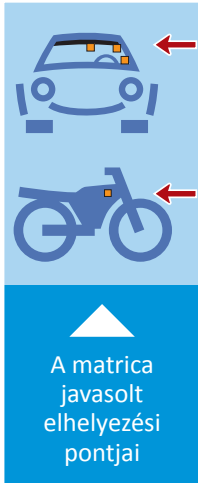

A féléves matrica a vásárlás napjától számított hat hónapig érvényes.

Heti matrica

Havi matrica

Féléves matrica

A matrica elhelyezése

Mielőtt fizetős utat használ helyezze el a matricát a járművön!

Mielőtt a matricát elhelyezné a járművön, olvassa el a matrica hátoldalán lévő utasításokat.

Egy matrica csak egy járművön használható! Eltávolításkor a matrica megsérül, ezért az tovább nem használható fel. A matrica rögzítéséhez más ragasztóanyag, fólia, vagy ragasztószalag nem használható. Ilyen eszközök használata érvényteleníti a matricát.

Felügyelet

A matricák megfelelő használatát a Szlovén Autópálya-kezelő Társaság (DARS), a Szlovén Köztársaság Vámigazgatósága és a rendőrség ellenőrzi.

Az autópályák és gyorsforgalmi utak érvényes matrica nélkül történő használata az útdíj fizetéséről szóló törvény megsértésének számít, mely 300-tól 800 euróig terjedő pénzbírsággal büntetendő.

Pótmatrica

A pótmatrica kiadására és a pótmatrica árának visszatérítésére vonatkozó összes információ a www.dars.si weboldalon található meg.

A pótmatrica kiadása és a pótmatrica árának visszatérítésével kapcsolatos eljárásokat személyesen vagy postai úton intézheti el a Felhasználói Központban (Cestninski uporabniški center).
